Heating Capacity ²	400 - 1,200 sq ft
Maximum Burn Time	10 hrs
Efficiency ³	81% LHV; 75% HHV
Emissions	1.99 g/hr
Firebox Capacity	1.25 cu ft
Recommended Log Length	16"
Actual Weight	215 lbs

Up to \$2,000 annually for qualifying purchase. **EPA and Tax Credit Certified save money and be kind to the environment with industry leading technology and high efficiency

Timeless cast iron styling with a furniture-quality finish

North-south orientation for easy loading

Top plate cooking surface for the stove top chef

Up to 10 hours of burn time from each load of wood

Continuous Combustion Control™ (C3) Technology

Our exclusive C3 technology is tuned to provide optimal burn throughout the life of your fire. From startup to last coals, C3 technology manages all the give-and-take for you, automatically adjusting and delivering just the right amount of air to optimize efficiency and heat output. This heat activated technology requires no electricity or manual air controls. The result – the most consistent, easiest burn you will experience.

Specifications

6" single or double wall pipe	CLEARANCES TO COMBUSTIBLES		
	A	B	C

For full warranty details, visit www.forgenflame.com.

1: BTU/hr output: 1st hour output uses high burn efficiency number. BTU/hr output will vary depending on the type of fuel used and moisture content of the fuel. 2: See your local Vermont Castings authorized dealer for help in determining the product that best suits your heating needs based on climate and home efficiency. 3: Weighted average LHV (Low Heating Value) efficiency. HHV (High Heat Value) efficiency used to qualify products for Tax Credit beginning in 2023. IMPORTANT - READ BEFORE YOU INSTALL! - Refer to the Owner/Installation Manual for complete clearance requirements and specifications. The images and descriptions in this brochure are provided to assist you in product selection only. Vermont Castings is a registered trademark of Hearth & Home Technologies. Product specifications and pricing subject to change without notice. Fireplace, stove and insert surfaces get extremely HOT and can cause burns if touched. Keep a safe distance away.
